

Artist Statement

My name is Ammon Hayden I started Digital Photo Freshman year because I was interested in Photoshop and learning the basics of that program. Of my 10 bests only one photo is not Photoshoped, that photo is of the leaf. Other than that there is not much else in common.

I don't really like to take pictures of other people mainly because I dislike my picture getting taken. The pictures of people I have taken are ether me or people who have almost begged me to take their picture. Such as my little sister who was perfect in the clone challenge we did.

So far I've surprised myself. I had no idea I would do as well as I had. Although I still would wish to learn more in Photoshop I think this year turned out pretty well and cant wait to take AP Digital photo next year.
